

## To Our Valued Suppliers,

As part of Axiomatic Technologies Corp.'s commitment to ethical sourcing and regulatory compliance, we regularly reach out to request your participation in completing the annually revised Conflict Mineral Reporting Template (CMRT v.6.X). The current version template as of April 26, 2024, is v.6.4.

The CMRT is a standardized reporting template developed by the Responsible Minerals Initiative (RMI) to facilitate the disclosure and communication of information regarding the sourcing of conflict minerals (tin, tungsten, tantalum, and gold, collectively known as 3TG) within supply chains. This template helps companies like AXIOMATIC ensure that the minerals in our products do not originate from sources that finance armed conflict or involve human rights abuse, particularly in the Democratic Republic of Congo (DRC) and adjoining countries.

## Why Your Participation Matters

Your timely and accurate completion of the CMRT 6.4. is crucial for several reasons:

- **Compliance:** It ensures that we, and by extension, our customers, comply with the Dodd-Frank Act requirements: [Click here for more information on the Dodd-Frank Act.](#)
- **Ethical Sourcing:** It helps promote ethical sourcing practices that prevent human rights abuses, including child and forced labour.
- **Supply Chain Integrity:** It supports our commitment to maintain a supply chain free from conflict minerals sourced from non-conformant smelters and refiners.
